ENVIRONMENTAL, HEALTH, AND SAFETY (EHS) POLICY

Policy Statement

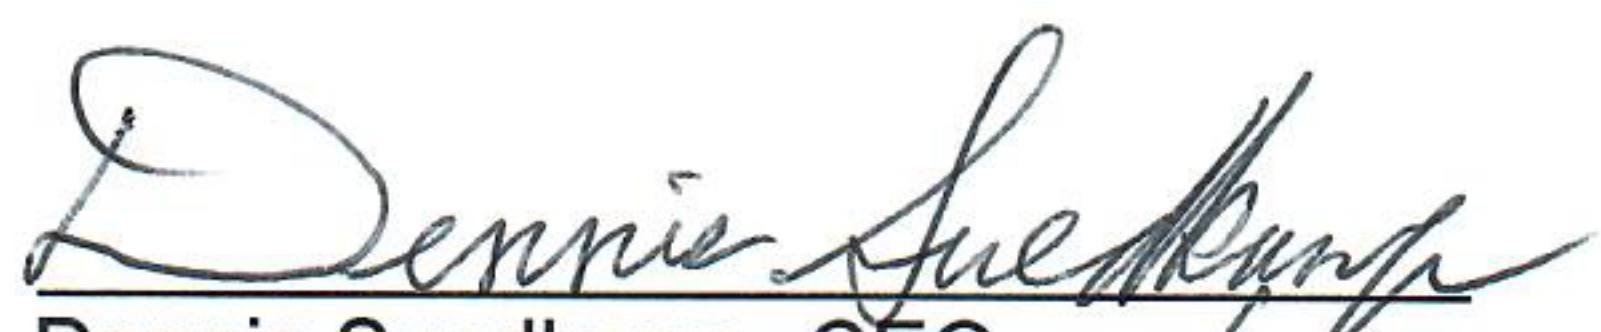

Aircraft Component Repair, Inc. (ACR) is committed to providing a safe, healthy, and environmentally responsible workplace for all employees, contractors, visitors, customers, and business partners. We believe that workplace injuries, occupational illnesses, and environmental incidents can be prevented through effective leadership, employee involvement, hazard identification, and continuous improvement.

Safety and environmental stewardship are core values of our organization and are essential to achieving operational excellence, product quality, customer satisfaction, and regulatory compliance.

ACR is committed to maintaining a safe and healthy workplace by:

- Providing safe and healthful working conditions in accordance with applicable federal, state, and local laws and regulations.
- Maintaining an effective Injury and Illness Prevention Program (IIPP) as required by California law.
- Identifying, evaluating, and correcting workplace hazards in a timely manner.
- Conducting routine workplace inspections to identify unsafe conditions and work practices.
- Investigating workplace injuries, illnesses, near misses, and incidents to determine root causes and implement corrective actions.
- Complying with all applicable Cal/OSHA regulations, environmental regulations, fire codes, and industry standards.
- Meeting customer-specific requirements and aerospace industry expectations related to environmental, health, and safety performance.
- Maintaining required records, permits, certifications, and reporting obligations.
- Conducting business operations in a manner that minimizes environmental impact.
- Providing leadership, resources, training, and the oversight necessary to implement this policy and maintain compliance with all applicable EHS requirements.

Through our shared commitment, ACR strives to achieve a culture of continuous improvement and accountability.
